

Protect-A-Wire

Short Description

Protect-A-Wire

Description

Protect expensive spark plug wire sets from potential burning, cracking, and hardening typically caused by severe under hood heat. Easily installs on wire by removing distributor boot and sliding Protect-A-Wire over spark plug wire.

- Constructed from high temperature resistant gladd fibre material
- withstands 500°F continuous, 1200°F radiant heat
- Protects electrical wiring, speedometer cable, hoses and more up to 10mm diameter
- Includes DEI Hi-Temp shrink tubes
